E3 Reading – Hackney Places – Adjectives, Adverbs and Jigsaw Reading – Day Plan and Answers

Two lessons on one topic: four Hackney places. Morning: adjectives for places and a jigsaw reading (read for detail, share information, work out word meaning from context). Afternoon, PC room: adjectives and adverbs, an online error hunt, a maps task, and writing a short description for Teams.

Aims: Learners can find specific details in a short descriptive text; explain the meaning of a word from the sentence around it; choose between an adjective and an adverb; describe a familiar place with three adjectives.

Exam skills: Reading for detail when the question uses different words from the text; word meaning in context; proving an answer from one sentence.

Prep: Before the morning: arrange the room as four tables (A, B, C, D) and import the Kahoot file into Kahoot. Before 12:30: log the PCs in and post the Find the error link in Teams General. No cutting out.

Print: Texts and questions: one side per group (A, B, C, D) – print one copy of each side for every learner in that group, plus spares. Information grid: one side, landscape, one per learner. Nothing for the afternoon.

Checking learning: Groups must prove every answer from a line in the text before they regroup (monitor and correct here – the experts must be accurate). Grid checked as a class, with the expert answering first. In the afternoon, Find the error scores show who needs help with adverbs; pick out errors from the Teams posts for whole-class correction.

Morning – Hackney places: jigsaw reading (about 9:40–11:45)

Time	Activity	Resources
9:40 (10)	Settle in: Hangman Paragraphs with the Victoria Park paragraph on slide 2. When it is solved, ask which words describe the park (large, green, quiet, busy) and which words tell you how people do things (slowly, happily). Leave both lists on the board for the afternoon.	AM slide 2 · Hangman Paragraphs
9:50 (10)	Lead-in: the four places. Pairs discuss the three questions. Take feedback and board what learners already know about each place.	Slide 3
10:00 (15)	Words to describe places: learners come to the board in turn to match 12 adjectives to meanings. Drill the stress (COLourful, exPENsive, FAmous). Pairs test each other: one says the meaning, the other says the word.	Slide 4
10:15 (5)	Predict: pairs guess which place is busy and noisy, calm and quiet, and so on. Don't reveal – you come back to it after the reading.	Slide 5
10:20 (20)	Activity 1, expert groups. Each table reads a different text alone (5 min), answers questions 1–5, then checks in the group and finds the line that proves each answer. Each learner fills in their own row of the grid. Monitor closely and correct now. Fast finishers write one extra question about their text for the other groups.	Slide 6 (15-min timer) · Texts A–D · Grid
10:40 (25)	Activity 2, jigsaw. Regroup so each new group has an A, B, C and D. Each expert talks about their place for 3–4 minutes without showing the text; the others fill in the grid and ask questions (useful language on the slide). Then check the grid as a class: the expert answers first, then click the box. Go back to slide 5 and check the predictions.	Slides 7 (20-min timer), 8, 5 · Grid
11:05 (15)	Activity 3, word meaning in context: eight exam-style questions from all four texts. Learners show 1–4 fingers before you click. Each time, ask for the clue in the sentence, and model trying each answer in place of the word.	Slides 9–10
11:20 (15)	Kahoot, 20 questions: vocabulary, details from the four places, adjective or adverb. Go over the two most-missed questions.	Slide 11 · Kahoot file
11:35 (10)	Before you go: pairs describe a place near where they live – where, what	Slide 12

	you can do, two adjectives. Two or three learners share with the class.	

Afternoon, PC room – Describing Hackney: adjectives and adverbs (about 12:30–2:30)

Time	Activity	Resources
12:30 (15)	Adjective or adverb? Elicit the “how” words from the morning texts (shout loudly, play happily, ride slowly, walk carefully). Present the rule on the slide: an adjective describes a thing or place (often after is/was); an adverb says how we do something. Spelling: -ly, y → -ily; irregular good → well, fast, hard. Concept check: a quiet street / speak quietly.	PM slide 2
12:45 (15)	Choose the right word: learners come to the board in turn and click. The class says why: does it describe a thing, or how someone does it? Note: hardly is not the adverb of hard.	Slide 3
13:00 (20)	PCs, on their own: Find the error – tap the mistake, then type the correct sentence (20 sentences). Walk round and note the most common mistakes for feedback.	Slide 4 · Find the error page
13:20 (20)	PCs, online maps: each learner searches for their morning place on Google Maps and finds the nearest station, the opening times (if any), the walking time from college and two adjectives from reviews; then one thing that is the same as the text and one new thing. Quick class share.	Slide 5 · Google Maps
13:40 (25)	Write and post: 4–5 sentences about a favourite place in London with three adjectives and one adverb, posted in Teams General. Then each learner reads two posts and replies with one question, and answers the questions they get. Show two posts on the screen: praise good adjectives and correct one adjective/adverb mistake together.	Slides 6–7 · Teams
14:05 (20)	Who Wants to Be a Millionaire: click “Copy the questions” on slide 8, open the game, choose My questions and paste. Teams of three; one team plays at a time, the class can help with a lifeline.	Slide 8 · Millionaire game
14:25 (5)	Before you go: pairs say sentences with quiet/quietly and good/well, and finish “Next time I read a new word, I will …”.	Slide 9

Differentiation: Give weaker readers text B or D and seat two of them in the same expert group; in the jigsaw they may read out their grid row. Stronger learners write the extra question in Activity 1, and in the afternoon write 6–8 sentences with two adverbs and reply to three posts. If the morning runs late, shorten Activity 3 (do slide 9 only), not the jigsaw.

Answers

Slide 4: busy – with a lot of people and activity; noisy – with a lot of loud sound; quiet – with very little sound; colourful – with many bright colours; cheap – does not cost much; expensive – costs a lot; fresh – new, not old (food); large – big; famous – many people know it; polite – nice and kind to other people; lovely – very nice; old – not new; here for a long time.
