E3 Reading – ESB Set L Exam Practice, Ordering Tasks and a Timed Online Paper – Day Plan and Answers

Week 10 · H-80042 · ESB criteria AC1.1, AC1.2, AC1.3, AC1.4, AC2.1, AC3.1, AC4.1 · Exam: Week 13

Print: Nothing to print except the Set L paper (Tasks 1 and 2, 14 questions, 2 pages double-sided, one each, from the ESB sample paper file; the Hub card has the link). Everything else is on the projector and online.

Prep: None beyond printing. Before 12:30 log the PCs in and post the online practice and timed paper links in Teams. Have the Kahoot (Hub card) and the Wednesday projector page open at slide 11.

Project: Morning – Wednesday projector lesson (slide 14 routine, slide 11 timer, slides 12–13 Set L answers); Hangman Paragraphs; Kahoot. Afternoon, PC room – Monday projector lesson (slides 2–3, 11, 12, 13, 14). Learners need no phones.

Why this plan: On Wed 11 Nov the class did not finish the projector work or sit the Set L paper, so the morning does it. The online practice and the 16-question timed online paper (held over from 9 Nov) stay in the PC room. No cutting out.

Morning, classroom – Set L under exam conditions, then Kahoot (about 9:40–11:45)

Time	Activity and aim	Resource	What to say (and do)	Learners do	Grouping	Answers / check
9:40 (10)	Settle in: Hangman Paragraphs. Aim: words from context while you take the register.	Hangman Paragraphs (loaded link, Hub card) · read-aloud text page · audio track Script A	*Open the game, then read the paragraph aloud once (or play audio track Script A).* "While I do the register, look at the board. Guess a letter. Put your hand up and say one letter." *When it is solved:* "'If you cannot find the book you want, a librarian will help you.' Who helps?" "'It is a warm, friendly place to practise your reading.' What is 'It'?" "'Anyone can join for free.' What does 'for free' mean?"	Say letters; read the solved paragraph.	Whole class	a librarian · a public library · it costs no money. If short of time: stop after the first question.
9:50 (10)	Exam set-up and routine. Aim: work the way you will in the real exam.	Wednesday projector slide 14 (My exam routine), then slide 11 (timer) · Set L Tasks 1–2 paper	*Show slide 14 and read it with the class.* "Today is a real exam paper. Desks apart. Phones away. No talking. Blue or black pen." "Look at the routine. First, read the title and the first sentence of each paragraph. Second, read everything once. Third, answer the easy questions first. Fourth, check each answer in the text. Never leave a question blank – you lose no marks for a wrong answer." "In the real exam you have 60 minutes for 21 questions. Today you have 40 minutes for 14 questions. We finish at 10:40." *Hand out Set L, Tasks 1 and 2 (14 questions). Write 10:40 on the board.*	Move desks apart; put phones away; read the routine aloud.	Whole class	Check: every learner has a pen, the paper face down, and can say the finish time.
10:00 (40)	Set L Tasks 1 and 2, timed. Aim: finish a real paper in the time.	Wednesday projector slide 11 (timer, start it) · Set L paper	"Turn over your paper. You may start. Read the title and first sentences first." *Start the timer. Do not help with words. Walk round and note who gets stuck and on which question.* "Twenty minutes left." (at 10:20) "Five minutes left. Answer every question." (at 10:35) "Finished early? Write the line number of the proof beside each answer."	Work alone in silence; fast finishers write proof line numbers.	Alone	Listen for: nobody talking; everyone answers all 14. Note the two questions most learners leave blank. Do not cut this step.

Time	Activity and aim	Resource	What to say (and do)	Learners do	Grouping	Answers / check
10:40 (25)	Prove it: swap and mark. Aim: every answer is proved from the text.	Wednesday projector slides 12–13 (Set L answers, click to show) · Set L paper	"Stop writing. Swap papers with your partner. Take a different colour pen." "I will ask for the answer. Then a different learner reads the words in the text that prove it. One. What is the answer?" … "Who can read the words that prove it?" "Question 3 – who is 'they'? Question 10 – who is 'I'? Look back, singular or plural, person or thing." "Question 5 and 12 – what is the purpose? Which wrong answer was tempting? Why is it wrong?" "Count the marks out of 14. Write the number at the top. Hands up for each question you got right." *Record the class's two weakest questions on the board.*	Mark in a different colour; one gives the answer, another reads the proof.	Pairs, then whole class	Task 1: 1 False. 2 any two: houses are cheaper in the north; travel is cheaper; day-to-day living is cheaper. 3 C Companies. 4 B a list of questions. 5 C reports. 6 they pay lower rent; they get staff more easily. 7 fare, film, music, podcast. Task 2: 8 B wanting a job. 9 Leeds. 10 C James Turner. 11 False. 12 A offer an interview. 13 Debbie Seymour. 14 attend.
11:05 (15)	Fix it. Aim: learners correct what they got wrong and see why.	Marked Set L paper · Wednesday projector slides 12–13 · board	"Look at the questions you got wrong. Choose two. For each one, write the correct answer in the margin and the words in the text that prove it. Then tell your partner why the wrong answer was tempting." "Everyone, look at the board – these are the two weakest questions for the class. Let us read the text for the first one together." *Read the proof sentence aloud and ask: "Which words in the question are different from the words in the text?"*	Correct two wrong answers with proof; tell a partner.	Alone, then pairs	Check: each learner has written two corrections with a line from the text. If short of time: cut to one correction each.
11:20 (25)	Kahoot, 20 questions. Aim: pronouns, word meaning, time order, ABC order, purpose and details one more time.	Kahoot (link on the Hub card; import file in the library if it is not live)	"Get out your phones. Join the Kahoot. Use your first name." *Play the 20 questions. After each wrong-answer-heavy question, ask: "Which words in the text prove it?"* "Which two questions were hardest? Let us look at them again." "Finish: tell your partner, 'Next time in the exam I will …'."	Answer on phones; give proof for hard questions.	Whole class (individual scores)	Answers are in the Kahoot list at the end. If short of time: play the first 15 questions.

Afternoon, PC room – Online practice and a timed online paper (about 12:30–2:30)

Time	Activity and aim	Resource	What to say (and do)	Learners do	Grouping	Answers / check
12:30 (10)	Log in and warm-up. Aim: time words, before and after.	Monday projector page slides 2–3 · PCs	"Log in to your computer. While we wait, look at the board. I will tell you my morning out of order. Tap the events in the order they happened." *Open slide 2 and read the morning story. A learner comes up and taps the events in order. Then show slide 3.* "Before and after cause most mistakes. Dates, months and times help too."	Log in; one learner taps at the board.	Whole class	Check: before and after used correctly; the learner at the board gives the proof words. If short of time: slide 2 only.
12:40 (30)	Online practice. Aim: time order, alphabetical order, pronouns and word meaning.	Monday projector slide 11 · online practice page (Teams link)	"Open the online practice link from Teams. Do tab 1 and tab 2 – what happened first, time order. Then tab 3 – alphabetical order. The score goes up only when everything is in the right order." "Finished? Do tab 4 – pronouns, word meaning, purpose. Still finished? Help your neighbour." *Walk round. Note who is stuck on tab 3 (second and third letters).*	Work alone on the PC; fast finishers do tab 4 or help a neighbour.	Alone (helping neighbours at the end)	Tab 3: the page marks itself. Listen for: "look at the second letter". If short of time: tabs 1 and 3 only.
13:10 (5)	Exam set-up. Aim: exam conditions on a PC.	Monday projector slide 12 (do not start the page timer yet)	"This is a real timed paper on the computer. Open the timed paper link. Type your first name. Do not press Start yet." "Phones away. No talking. No translation. Answer every question. You can go back. Read the title and first sentences first."	Open the paper; type a first name.	Alone	Check: everyone is on the paper page, nobody has pressed Start.
13:15 (40)	Timed online paper: two texts, 16 questions. Aim: finish in 40 minutes.	Timed online paper page · Monday projector slide 12 (timer)	"Everybody press Start now." *The page has its own clock and shows a warning colour at 20 and 5 minutes left. Note who gets stuck where.* "Twenty minutes left." "Five minutes. Answer every question. Finished early? Check every answer in the text, then press Finish."	Work alone in silence.	Alone	Skills the page reports: pronouns 1, 12; main point 2; time order 3; word meaning 5, 8, 13; purpose 6, 11; alphabetical 7, 16; details 4, 9, 10, 14, 15. Do not cut.
13:55 (20)	Prove it: results screens and answers. Aim: find the weak skills.	Monday projector slide 13 (answers, click to show) · each learner's results screen	"Look at your results screen. The red rows are the skills to practise. Hands up for red pronouns … red word meaning … red time order … red alphabetical order …" *Count hands for each skill. "Now the answers. I say the number. One learner gives the letter. Another reads the line that proves it." "Questions 2, 6 and 13 – what made the wrong answers tempting?"	Check own score; give answers and proof lines.	Whole class	Answers: 1 B Mr Bailey. 2 B. 3 asked for permission, took the rubbish away, put seeds into boxes, snails destroyed plants. 4 C. 5 A. 6 B. 7 flowers, food, garden, greenhouse, group. 8 B. 9 C. 10 snails ate the plants; no rain for three weeks. 11 B. 12 B the certificate. 13 B. 14 B. 15 a photo ID; a letter with your address. 16 beginners, bill, book, certificate, classes. If short of time: go through red skills only.
14:15 (10)	Exam day routine and targets. Aim: carry the routine to Dec exam.	Monday projector slide 14	*Show slide 14 and read the five steps with the class.* "Never leave a question blank. Tell your partner: 'Next time I will …'." *Record each skill with most red rows for the next lesson.*	Say a target to a partner.	Pairs	Check: each learner can say one target.
