E3 Reading – Too Cold to Learn – Exam Practice

PC room · about 1 hour · Teacher Notes and Answer Key · Version 1

https://claude.ai/artifact/Ev72SavG7H8CT9kjT3e7zS

How to run it (60 min)

Min	What happens
5	Post the link in Teams General. Students type their name and date, then read the 6 exam tips on 'Before you start'.
40	Students click the timer and do Task 1 (news article, Q1–7) and Task 2 (email + reply, Q8–14) in silence, like the exam.
5	They click 'Check my answers'. The page marks it and shows a skills table (AC1.1–4.1). Note each student's score.
10	Whole class on the projector: go through the 2–3 most-missed questions. Click 'Show in text' to highlight the evidence. Focus on why the wrong options are wrong.

Notes

- **Written answers:** Q2, Q6, Q9 and Q13 are written answers, marked by keywords. Check any marked wrong that look right.
- **Differentiation:** pair a weaker student with the tips page open. Fast finishers: write the reply they would send if they were Mr Patel.
- **Saving:** answers save on that PC only, so students finish on the same computer. A fresh browser starts a fresh paper.
