London Fields and the Lido

1 London Fields is a large green park between Hackney Central and Broadway Market. On sunny days it is full of people. Families have picnics on the grass, children play happily in the playground, and friends play football or table tennis. There is also a special area where you can have a barbecue.

2 At one side of the park is London Fields Lido, an outdoor swimming pool. It is 50 metres long and the water is heated, so people swim there all year – even in December! The lido is not free, and on busy days it is a good idea to book online. If you are not a strong swimmer, use the slow lane and swim calmly.

3 The park is free and open every day. In winter it gets dark early, so walk home with a friend in the evening.

Questions

Answer on your own first. Then check with your group and find the line in the text that proves each answer.

1. What can families do in the park?

A swim for free
B eat a meal outside on the grass
